

Illustrative District Facility Delivery Report

Reporting years: 2021 to 2023

This short digital PDF is a synthetic benchmark fixture. It contains no personal records and must not be described as official statistics.

Indicator definition

Facility delivery coverage is the percentage of recorded deliveries that occurred in a health facility. The report supplies percentages only; it does not supply counts or causal explanations.

Source label: synthetic facility-delivery PDF fixture. The data table is Table 1 on page 2.

Table 1. Facility delivery coverage by district and year

District	2021 (%)	2022 (%)	2023 (%)
Gaya	62.0	67.0	72.0
Nalanda	70.0	74.0	79.0
Purnia	55.0	61.0	66.0
Kishanganj	50.0	56.0	60.0
